

# CHANGE MY PERSPECTIVE GLASSES

Perspective means point of view. Norman the Button thinks everyone's shoes are dirty because he is two inches tall and is very close to the ground. We all have different points of view because we are different ages, genders, and have grown up in different places. Wear Norman's eye-glasses and see if you can see another person's perspective. Hint: You can ask the other person questions!

**Print on card stock and cut out shapes. Glue A to A and B to B.**
